Affairs Getting Complicated.
MONTREAL, July 11.—The mayor has just given his ultimatum, to the effect that he will carry out his proclamation and prevent the procession taking place. For this purpose he is about to swear in five hundred special con-

stables. He has just marched a large body of police to the Orange hall, on St. James street, where they are placed in front of the building, while a force of detectives is inside searching for arms. A large crowd is collected, watching the proceedings.

The Irish Catholics have just assembled in Union Hall to consider what action they will take. The attendance there is immense, and the greatest excitement prevails.

Three of the magistrates who signed the requisition to call out the military have had

an interview with General Smythe to learn his views as to the course he will adopt in view of the prospect of a conflict of action between the mayor and the magistrates. He said his first desire was to preserve peace. He would take his orders, however, from the magistrates.

Matters are now in a more complicated con-

dition that ever, and no one can tell what may happen at any moment. The streets are filled with people, and the greatest excitement prevails.

It is not known what the Orangemen will do, but it is thought that they will persist in marching.

A FRUITLESS SEARCH.
MONTREAL, July 11.—The police made active search for arms in Orange Hall to-day, but none were found. The recorder and other magistrates have been engaged all day swearing in special constables. It is expected that 500 will be accepted to-night. Each special constable is required to swear that he belongs to no secret society. Most of the men who gave to their names were Catholics, either French or Irish. From the general run of the men accepted the gravest doubts were expressed by those present of their being of great help in preserving the peace of the city.

One hundred special constables to protect the workshops and sheds of the Grand Trunk Railway at Point St. Charles have been sworn in. Sixteen men were also sworn in to guard St. Patrick's Church.

It was reported to General Smythe that there were five keels of powder stolen from the

Hamilton Powder Company are concealed in the drains of the city, to be used, if opportunity offers, in blowing up buildings. A number of carpenters are busily engaged making shutters for shop-windows, in anticipation of trouble to-morrow. It has been reported that 400 men, armed with revolvers, left Quebec this afternoon to come to the city and assist the Frenchmen in their rebellion. The general hospitals are arrangements for to-morrow, the Hotel Dieu Hospital has also set apart a ward for accidents.

Quincy, July 11.—A large crowd of met

of the town to-day and took all the revolvers they could find, paying for them in some instances, but not in others. The proprietors of all the other hardware stores, learning of this fact, closed up their establishments. An immense crowd was present on the wharf to-day when the steamer left for Montreal. About three hundred Irishmen left, who were cheered at their departure by crowds on the wharf who fired several pistol shots in the air as the boat moved away.

Lieut. and Lady Dufferin, accompanied by Captain Hamilton, aide-de-camp, arrived in town this morning from Tadoussac, and are staying at the hotel.

THE PROCESSION INSISTED ON,
MONTREAL, July 11.—The Orangemen have finally decided to walk tomorrow, in defiance of a letter from the mayor that, acting under legal advice, he would arrest those taking part in a public procession. Some high legal authorities have stated that the mayor has no legal authority for stopping the procession. Sir Silvester Smith has taken measures to have the steamer "Saskatchewan" sent down river to Kingston.

MADE TROOPS READY IN MONTREAL.
TORONTO, Ont., July 11.—The Tenth Regiment have been ordered to hold themselves in readiness to start for Montreal at a moment's notice. The Queen's Own Rifles are also being got ready. The Grand Trunk Railway has instructions to be prepared to supply three trains for transportation of troops to Montreal if re-

EUROPEAN NEGOTIATIONS.

BERLIN, July 11.—The session of the congress to-day lasted four hours and fifteen minutes, Lord Beaconsfield was again absent.

The reading of the treaty was completed. Only a few immaterial points are left for settlement on Saturday. There will be no sitting on Friday, in order to allow time for the preparation of copies of the treaty.

CONDITION OF EMPEROR WILLIAM.

BERLIN, July 11.—Emperor William's physicians have issued another long statement in regard to his condition. They describe him as

His Majesty's relatively slow progress toward recovery from loss of blood and appetite, to the shock to his system, and to mental depression, show, in this attainable degree of strength is not yet regained. His power of locomotion is small. His hands are helpless, and he cannot eat without assistance. The physicians, however, are doubtful of his recovery by the influence of time and exercise.

that British and Turkish commissioners, to arrange for the evacuation of Shumla and Varna, will leave Constantinople on Friday.
